Course Description

A century and a half ago, the United States was a backwater of the Jewish world, then centered in Europe and the Ottoman Turkish Empire. Yet, by the 1950s, the United States became home to the largest, most prosperous, and most secure Jewish community in modern history. Why did millions of Jews come to the United States? How has life in a liberal political and capitalist economic order shaped the Jewish experience in America? In turn, how have Jews influenced American culture, politics, and society? This course surveys the history of American Jews from the 18th century until the late 20th century. Topics include patterns of political behavior (radicalism, liberalism, and nationalism), social mobility, Jewish culture in Yiddish and English, inter-ethnic group relations, gender and sexuality, religion, and problems in community building. The course combines lectures, in-class discussions, film, and audio recordings. Readings consist of secondary and primary sources.
